

BSI Standards Publication

Aerospace series - Spectral quality of LED luminaires used with photoluminescent marking systems

National foreword

This British Standard is the UK implementation of EN 4731:2018.

The UK participation in its preparation was entrusted to Technical Committee ACE/6, Aerospace avionic electrical and fibre optic technology.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English Version

Aerospace series - Spectral quality of LED luminaires used with photoluminescent marking systems

Série aérospatiale - Qualité spectrale des luminaires à diodes électroluminescentes appliquées aux systèmes de marquage photoluminescents

Luft- und Raumfahrt - Spektrale Qualität von LED Leuchten zur Verwendung mit langnachleuchtenden Markierungssystemen

This European Standard was approved by CEN on 20 November 2017.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Contents		Page
European foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms, definitions and abbreviations	5
4	Spectral quality	7
Annex A (informative) Approximated excitation spectrum		10
A.1	General	10
A.2	Approximated excitation spectrum $A\lambda(\lambda)$ for typical photoluminescent pigments based on strontium aluminate	10
Annex B (informative) Examples of different light spectra		11
B.1	Example for a single colour LED luminaire	11
B.2	Example for a multi-colour LED luminaire (white primary mixed with blue primary)	12
B.3	Example for a multi-colour LED luminaire (all RGBW primaries are mixed)	13
B.4	Example for a bi-colour LED luminaire (white and amber primaries are mixed)	14
B.5	Example for a bi-colour LED luminaire (white and amber primaries are mixed)	15
