Safety Standard For Operations With Fissionable Materials Outside Reactors

ASA N6.1—1964 UDC 62.039.1:614.83

Sponsored by

American Nuclear Society

The American Society of Mechanical Engineers

Foreword

(This Foreword is not a part of American Standard Safety Standard For Operations with Fisionable Materials Outside Reactors, ASA N6.)

This publication presents criteria on which to base the design of equipment and processes to assure safety in the handling of fissionable materials outside reactors.

Following approval of the Sectional Committee and sponsors, this standard was submitted to the American Standards Association for approval and designation as an American Standard. This approval was granted on June 11, 1964.

Suggestions for improvement gained in the use of the standard will be welcome. They should be sent to the American Nuclear Society, Standards Committee, 244 E. Ogden Avenue, Hinsdale, Illinois, with copy to The American Society of Mechanical Engineers, Standards Manager, United Engineering Center, 345 East 47th Street, New York, New York. 10017

Sectional Committee N6 Reactor Safety Standards

Officers of the Sectional Committee

M. C. Leverett, Chairman

R. A. Bowman, Vice Chairman

Harold Etherington, Vice Chairman

Phillip H. Wilks, Secretary

The American Nuclear Society Project 8 Subcommittee which prepared this standard had the following membership at the time of its approval:

Dixon Callihan, Chairman, Union Carbide Nuclear Company, Oak Ridge National Laboratory James Carothers, Lawrence Radiation Laboratory

- H. K. Clark, E. I. du Pont de Nemours and Company, Savannah River Plant
- E. D. Clayton, General Electric Company, Hanford Atomic Products Operation
- H. F. Henry, Union Carbide Nuclear Company, Gaseous Diffusion Plant
- W. B. Lewis, Phillips Petroleum Company, National Reactor Testing Station
- J. D. McLendon, Union Carbide Nuclear Company Y-12 Plant
- H. C. Paxton, Los Alamos Scientific Laboratory
- C. L. Schuske, Dow Chemical Company, Rocky Flats Plant

Frank Woltz, Goodyear Atomic Corporation
