## Foreword

This European Standard (EN 201:1997/A2:2005) has been prepared by Technical Committee CEN/TC 145 "Plastics and rubber machines", the secretariat of which is held by UNI.

This Amendment to the European Standard EN 201:1997 shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2006, and conflicting national standards shall be withdrawn at the latest by January 2006.

This amendment updates EN 201:1997 with regard to injection moulding machines with one or more electrical axes.

The following movements, driven by an electrical axis, are not considered:

- vertical movements of the platen;
- horizontal movements of the platen where the guards for the mould area are not interlocking guards with guard locking.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
