CHAPTER

CD**CASING WHILE
DRILLING**

The IADC Drilling Manual is a series of reference guides assembled by volunteer drilling-industry professionals with expertise spanning a broad range of topics. These volunteers contributed their time, energy and knowledge in developing the IADC Drilling Manual, 12th edition, to help facilitate safe and efficient drilling operations, training, and equipment maintenance and repair.

The contents of this manual should not replace or take precedence over manufacturer, operator or individual drilling company recommendations, policies or procedures. In jurisdictions where the contents of the IADC Drilling Manual may conflict with regional, state or national statute or regulation, IADC strongly advises adhering to local rules.

While IADC believes the information presented is accurate as of the date of publication, each reader is responsible for his own reliance, reasonable or otherwise, on the information presented. Readers should be aware that technology and practices advance quickly, and the subject matter discussed herein may quickly become surpassed. If professional engineering expertise is required, the services of a competent individual or firm should be sought. Neither IADC nor the contributors to this chapter warrant or guarantee that application of any theory, concept, method or action described in this book will lead to the result desired by the reader.

CHAPTER CD

CASING WHILE DRILLING

Contents

Introduction.....	CD-1	Why drill with a retrievable CwD system? ..	CD-8
Non-retrievable casing while drilling.....	CD-1	Typical retrievable CwD problems.....	CD-8
Enhanced rig equipment - surface		Liner drilling.....	CD-9
drive systems	CD-4	Non-retrievable liner drilling.....	CD-9
CwD centralizers	CD-4	Non-retrievable liner drilling and setting	
CwD connections, torque rings		sequence.....	CD-9
and wear bands/sleeves	CD-4	Why drill with a non-retrievable liner drilling	
Plastering effect.....	CD-5	system?	CD-11
Operations	CD-5	Typical problems with a non-retrievable liner	
Why drill with a non-retrievable		drilling system.....	CD-11
CwD system?	CD-5	Retrievable liner drilling	CD-11
Typical non-retrievable CwD problems	CD-6	Why drill with a retrievable liner	
Retrievable casing while drilling	CD-6	drilling system?	CD-12
Locking assembly.....	CD-6	Typical problems with retrievable liner drilling	
Internal duplex stabilizer.....	CD-6	systems	CD-12
Underreamer	CD-7	Safety and the environment	CD-13
Operations	CD-8	Conclusion	CD-13
