CASING AND TUBING

IADC Drilling Manual **12th Edition**

TUBULAR MAKE-UP EQUIPMENT YOU CAN DEPEND ON

MCCOY GLOBAL IS THE LEADING GLOBAL SUPPLIER of tubular make-up equipment for the energy industry. Customers trust our tools because we have consistently proven that our products outperform and outlast the competition. Our comprehensive fleet of power tongs can handle tubular as small as 1.66" to as large as 31". We offer a complete range of bucking units – continuous short stroke and long stroke, as well as make/break units. Our WINCATT® data acquisition system monitors and analyzes torque, turns and rotation speed during make-up, allowing operators to effortlessly control the job.

Visit our website for more information on how we can meet your needs. WWW.MCCOYGLOBAL.COM

CHAPTER

CT**CASING
AND TUBING**

The IADC Drilling Manual is a series of reference guides assembled by volunteer drilling-industry professionals with expertise spanning a broad range of topics. These volunteers contributed their time, energy and knowledge in developing the IADC Drilling Manual, 12th edition, to help facilitate safe and efficient drilling operations, training, and equipment maintenance and repair.

The contents of this manual should not replace or take precedence over manufacturer, operator or individual drilling company recommendations, policies or procedures. In jurisdictions where the contents of the IADC Drilling Manual may conflict with regional, state or national statute or regulation, IADC strongly advises adhering to local rules.

While IADC believes the information presented is accurate as of the date of publication, each reader is responsible for his own reliance, reasonable or otherwise, on the information presented. Readers should be aware that technology and practices advance quickly, and the subject matter discussed herein may quickly become surpassed. If professional engineering expertise is required, the services of a competent individual or firm should be sought. Neither IADC nor the contributors to this chapter warrant or guarantee that application of any theory, concept, method or action described in this book will lead to the result desired by the reader.

CONTRIBUTORS and REVIEWERS

Dan Postler, Sierra Hamilton
Dusty Sonnier, McCoy Global Inc.
Fred Dupriest, Texas A&M University
Stewart Barker, Albany Technical Services
Alistair Brodie, VAM Oilfield Service
Antoine Caillard, Vallourec
Dan Dall'Acqua, Volant Products Inc.
Malcolm Gray-Stephens, Frank's International
W.H. "Buster" Hamley, Weatherford
Neil Kimbler, Besco Tubular
Bob Moe, Viking Engineering
Kevin Robertson, EMAS Energy Services Ltd.
Allen Sinnot, Weatherford
Matthew Allen, Volant Products Inc.

CHAPTER CT

CASING AND TUBING

Contents

Introduction.....	CT-1	Summary of API casing grades.....	CT-10
Types of casing and tubing	CT-1	OCTG marking.....	CT-10
Drive, structural and conductor casing.....	CT-1	Transportation and handling	CT-12
Surface casing	CT-1	Transport and offloading.....	CT-12
Intermediate casing	CT-1	Handling	CT-12
Drilling liners.....	CT-2	Tubular storage.....	CT-13
Production casing and tiebacks.....	CT-2	Pipe racks.....	CT-13
Tubing	CT-2	Storage coatings and compounds	CT-13
OCTG materials	CT-2	Thread protectors.....	CT-13
Manufacturing methods.....	CT-2	Running procedure	CT-14
OCTG labels.....	CT-4	Running tools and equipment.....	CT-15
OCTG specifications.....	CT-4	Pick-up and lay-down tools.....	CT-22
Corrosion.....	CT-9	References	CT-24
Sour service corrosion (SSC)	CT-9
