

Australian/New Zealand Standard™

**Methods of testing wool packs for
greasy wool**

Part 0: Introduction and list of methods

AS/NZS 4547.0:2004

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee TX-012, Wool. It was approved on behalf of the Council of Standards Australia on 24 March 2004 and on behalf of the Council of Standards New Zealand on 26 March 2004. It was published on 12 May 2004.

The following are represented on Committee TX-012:

Australian Council of Wool Exporters
Australian Wool Exchange
Australian Wool Innovation
Australian Wool Processors Council
CSIRO—Textile and Fibre Technology
Inland Woolbrokers Association, Australia
International Accreditation New Zealand
National Association of Testing Authorities, Australia
National Council of New Zealand Wool Interests
National Council of Wool Selling Brokers of Australia
New Zealand Council of Wool Exporters
Meat and Wool New Zealand
New Zealand Wool Brokers Association
New Zealand Woolscourers Association
Testing Interests, Australia
Testing Interests, New Zealand
University of New England
Wool Research, New Zealand

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.
