#### **About the IEC**

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

#### **About IEC publications**

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

#### **IEC publications search - [webstore.iec.ch/advsearchform](http://webstore.iec.ch/advsearchform)**

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee, ...). It also gives information on projects, replaced and withdrawn publications.

#### **IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)**

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

#### **IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)**

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [sales@iec.ch](mailto:sales@iec.ch).

#### **IEC online collection - [oc.iec.ch](http://oc.iec.ch)**

Discover our powerful search engine and read freely all the publications previews. With a subscription you will always have access to up to date content tailored to your needs.

#### **Electropedia - [www.electropedia.org](http://www.electropedia.org)**

The world's leading online dictionary on electrotechnology, containing more than 22 000 terminological entries in English and French, with equivalent terms in 18 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

---

#### **A propos de l'IEC**

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

#### **A propos des publications IEC**

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

#### **Recherche de publications IEC - [webstore.iec.ch/advsearchform](http://webstore.iec.ch/advsearchform)**

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études, ...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

#### **IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)**

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et une fois par mois par email.

#### **Service Clients - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)**

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: [sales@iec.ch](mailto:sales@iec.ch).

#### **IEC online collection - [oc.iec.ch](http://oc.iec.ch)**

Découvrez notre puissant moteur de recherche et consultez gratuitement tous les aperçus des publications. Avec un abonnement, vous aurez toujours accès à un contenu à jour adapté à vos besoins.

#### **Electropedia - [www.electropedia.org](http://www.electropedia.org)**

Le premier dictionnaire d'électrotechnologie en ligne au monde, avec plus de 22 000 articles terminologiques en anglais et en français, ainsi que les termes équivalents dans 16 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

## CONTENTS

FOREWORD .....	7
1 Scope .....	9
2 Normative references .....	9
3 Terms and definitions .....	10
3.1 General terms and definitions .....	12
3.2 Terms and definitions related to BATTERY SYSTEMS .....	21
3.3 Terms and definitions related to efficiency and IDLE STATE power measurement .....	23
4 Environmental conditions .....	25
5 Tests .....	25
5.1 Test conditions .....	25
5.2 Measuring instruments .....	25
5.3 Conformity of components .....	26
5.4 TYPE TESTS .....	27
5.5 ROUTINE TESTS .....	27
6 Protection against electric shock .....	28
6.1 Insulation .....	28
6.2 Protection against electric shock in normal service (direct contact) .....	35
6.3 Protection against electric shock in case of a fault condition (indirect contact) .....	38
7 Thermal requirements .....	40
7.1 Heating test .....	40
7.2 Temperature measurement .....	41
7.3 Limits of TEMPERATURE RISE .....	43
7.4 Loading test .....	44
7.5 Commutators and slip-rings .....	45
8 THERMAL PROTECTION .....	45
8.1 General requirements .....	45
8.2 Construction .....	45
8.3 Location .....	45
8.4 Operating capacity .....	46
8.5 Operation .....	46
8.6 Resetting .....	46
8.7 Indication .....	46
9 Abnormal operation .....	46
9.1 General requirements .....	46
9.2 Stalled fan test .....	47
9.3 Short circuit test .....	47
9.4 Overload test .....	48
9.5 Capacitors short circuit .....	48
10 Connection to the supply network .....	48
10.1 Supply voltage .....	48
10.2 Multi-supply voltage .....	49
10.3 Means of connection to the SUPPLY CIRCUIT .....	49
10.4 Marking of terminals .....	49
10.5 PROTECTIVE CIRCUIT .....	50

10.6	Cable anchorage .....	51
10.7	Inlet openings .....	52
10.8	SUPPLY CIRCUIT on/off switching device .....	52
10.9	Supply cables .....	53
10.10	Supply coupling device (attachment plug) .....	54
11	Output .....	54
11.1	RATED NO-LOAD VOLTAGE .....	54
11.2	TYPE TEST values of the CONVENTIONAL LOAD VOLTAGE .....	57
11.3	Mechanical switching devices used to adjust output .....	58
11.4	WELDING CIRCUIT connections .....	59
11.5	Power supply to external devices connected to the WELDING CIRCUIT .....	60
11.6	Auxiliary power supply .....	60
11.7	Welding cables .....	60
12	CONTROL CIRCUITS .....	61
12.1	General requirement .....	61
12.2	Isolation of CONTROL CIRCUITS .....	61
12.3	WORKING VOLTAGES of remote CONTROL CIRCUITS .....	61
13	HAZARD REDUCING DEVICE .....	61
13.1	General requirements .....	61

16	Adjustment of the output .....	70
16.1	Type of adjustment .....	70
16.2	Marking of the adjusting device .....	70
16.3	Indication of current or voltage control .....	71
17	Instructions and markings .....	71
17.1	Instructions .....	71
17.2	Markings .....	72
Annex A (normative)	Nominal voltages of supply networks .....	73
Annex B (informative)	Example of a combined dielectric test .....	76
Annex C (normative)	Unbalanced load in case of AC tungsten inert-gas WELDING POWER SOURCES .....	77
C.1	General .....	77
C.2	Unbalanced load .....	78
C.3	Example for an unbalanced load .....	78
Annex D (informative)	Extrapolation of temperature to time of shutdown .....	80

Annex E (normative) Construction of SUPPLY CIRCUIT terminals .....	81
E.1 Size of terminals .....	81
E.2 Connections at the terminals .....	81
E.3 Construction of the terminals .....	82
E.4 Fixing of the terminals .....	82
Annex F (informative) Cross-reference to non-SI units .....	83
Annex G (informative) Suitability of supply network for the measurement of the true RMS value of the supply current .....	84
Annex H (informative) Plotting of STATIC CHARACTERISTICS .....	85
H.1 General .....	85
H.2 Method .....	85
H.3 Analysis of the results .....	85
Annex I (normative) Test methods for a 10 Nm impact .....	86
I.1 Pendulum impact hammer .....	86
I.2 Free fall spherical steel weight .....	86
Annex J (normative) Thickness of sheet metal for enclosures .....	88
Annex K (informative) Examples of RATING PLATES .....	90
Annex L (informative) Graphical symbols for arc welding equipment .....	97
L.1 General .....	97
L.2 Use of symbols .....	97
L.3 Symbols .....	98
L.4 Examples of combinations of symbols .....	116
L.5 Examples of control panels .....	118
Annex M (informative) Efficiency and IDLE STATE power measurement .....	121
M.1 General conditions for measurement .....	121
M.2 Measurements .....	122
M.3 Test report .....	125
M.4 Test report template .....	127
Annex N (normative) TOUCH CURRENT measurement .....	129
Annex O (normative) Battery-powered WELDING POWER SOURCES .....	135
O.1 General .....	135
O.4 Environmental conditions .....	136
O.5 Tests .....	136
O.6 Protection against electric shock .....	138
O.7 Thermal requirements .....	140
O.8 THERMAL PROTECTION .....	142
O.9 Abnormal operation .....	142
O.10 Connection to the supply network .....	146
O.14 Mechanical provisions .....	148
O.15 RATING PLATE .....	149
O.17 Instructions and markings .....	151

Table J.2 – Minimum thickness of sheet metal for enclosures of aluminium, brass or copper .....	89
Table L.1 – Letters used as symbols .....	98
Table M.1 – Typical nominal electricity supply details for some regions .....	122
Table M.2 – Load conditions for the ARC WELDING POWER SOURCE .....	123
Table M.3 – Required reported data (measured and calculated) .....	126

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

---

**ARC WELDING EQUIPMENT –****Part 1: Welding power sources****FOREWORD**

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as “IEC Publication(s)”). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

IEC 60974-1 has been prepared by IEC technical committee 26: Electric welding. It is an International Standard.

This sixth edition cancels and replaces the fifth edition published in 2017 and Amendment 1:2019. This edition constitutes a technical revision.

This edition includes the following significant technical changes with respect to the previous edition:

- a) Table 1 with an alphabetical cross-reference listing of terms added;
- b) CLEARANCE and CREEPAGE DISTANCE reference document changed to IEC 60664-1:2020;
- c) 6.1.2 and 6.1.3 modified to follow IEC 60664-1 BASIC INSULATION dimensioning for mains supply with rationalized voltages;
- d) abnormal capacitor test of 6.2.2 moved to new Subclause 9.5;
- e) 6.2.5 and 6.3.6 modified to use TOUCH CURRENT measuring network weighted for letgo-immobilization and supply voltage tolerance requirement added;
- f) 16.3 new structure and accuracy requirement for displayed voltage value;

- g) Annex A changed to normative and Table A.2 and Table A.3 added;
- h) Annex L editorial update to standardized symbols;
- i) redraft of efficiency and IDLE STATE power measurement in Annex M based on IEC 62301:2011;
- j) Annex N measurement network weighted for letgo-immobilization added.

The text of this International Standard is based on the following documents:

FDIS	Report on voting
26/724/FDIS	26/727/RVD

Full information on the voting for its approval can be found in the report on voting indicated in the above table.

The language used for the development of this International Standard is English.

This document was drafted in accordance with ISO/IEC Directives, Part 2, and developed in accordance with ISO/IEC Directives, Part 1 and ISO/IEC Directives, IEC Supplement, available at [www.iec.ch/members\\_experts/refdocs](http://www.iec.ch/members_experts/refdocs). The main document types developed by IEC are described in greater detail at [www.iec.ch/standardsdev/publications](http://www.iec.ch/standardsdev/publications).

In this document, the following print types are used:

- *conformity statements*: in *italic* type.
- terms used throughout this document which have been defined in Clause 3: SMALL ROMAN CAPITALS.

A list of all parts of the IEC 60974 series can be found, under the general title *Arc welding equipment*, on the IEC website.

The committee has decided that the contents of this document will remain unchanged until the stability date indicated on the IEC website under [webstore.iec.ch](http://webstore.iec.ch) in the data related to the specific document. At this date, the document will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

**IMPORTANT – The 'colour inside' logo on the cover page of this publication indicates that it contains colours which are considered to be useful for the correct understanding of its contents. Users should therefore print this document using a colour printer.**

## ARC WELDING EQUIPMENT –

### Part 1: Welding power sources

#### 1 Scope

This part of IEC 60974 is applicable to power sources for arc welding and allied processes designed for INDUSTRIAL AND PROFESSIONAL USE, and supplied by a voltage not exceeding 1 000 V, BATTERY supplied or driven by mechanical means.

This document specifies safety and performance requirements of WELDING POWER SOURCES and PLASMA CUTTING SYSTEMS.

This document is not applicable to limited duty arc welding and cutting power sources which are designed mainly for use by laymen and designed in accordance with IEC 60974-6.

This document includes requirements for battery-powered WELDING POWER SOURCES and BATTERY packs, which are given in Annex O.

This document is not applicable to testing of power sources during periodic maintenance or after repair.

NOTE 1 Typical allied processes are electric arc cutting and arc spraying.

NOTE 2 AC systems having a nominal voltage between 100 V and 1 000 V are given in Table 1 of IEC 60038:2009.

NOTE 3 This document does not include electromagnetic compatibility (EMC) requirements.

#### 2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
